866 Commercial Blvd Herculaneum, MO 63048

SOLD

Lawyers Realty Co.'s Brokers Zach Williams and David Wright represented Lorenzen Candle in the purchase of a 25,000 SF Industrial building on 2.3 acres in Herculaneum, MO.

Lorenzen Candles is a local Missouri owned Candle Manufacturer, the building will serve as their Headquarters, including production and distribution of their various products.

Our candles are made in Missouri with all-natural soy wax (made from beans grown by midwest farmers in the USA) mixed with the perfect amount of high-quality fragrance oils to give you the best candle experience money can buy. The cotton braided wicks we use to make our candles are low-smoke, clean-burning, and self-trimming (basically they're the best, but you'll still want to trim the wick between burns).
